How Leaderboard Data Was Evaluated and Used

Data Evaluation

1. Final Program Report
2. SSN Pre-/Post- Surveys

Data Uses

1. Student Case Management
2. Wraparound Service Supports

■ Percent Positive ■ Percent Positive SSN Fall 2015 Baseline

Percent Positive by Subgroup

The percent positive is the proportion of students responding positively (above the positive cutoff.) Your percent positive for each subgroup is compared to the Networkwide percent positive for that subgroup.

Overall percent positive data from TKH's leaderboard pilot program cohort, as shared via SSN's 2016-17 Baseline Report for The Knowledge House.
